

SANITRAX INTERNATIONAL

A DIVISION OF SATELLITE INDUSTRIES 

SANITRAX TOILET MODULE

When you're responsible for setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, it's important to provide optimal toilet and personal care facilities.

How do you ensure that the many toilets are thoroughly and quickly cleaned? The attractive, sturdy and very easy-to-use Sanitrax toilets are the ideal solution!

THE BEST MOBILE TOILET IMAGINABLE

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

And how about the unique flushing technology? This enables a saving of up to 90% on water use. This represents enormous cost savings and is extremely environmentally friendly. Furthermore, the attractive design and luxurious finish really stand out. The

combination of all these factors makes the Sanitrax Toilet Unit the most complete solution on the market.

SANITRAX GOES THAT EXTRA MILE

In addition to the comprehensive 'standard' toilet, Sanitrax also offers a VIP toilet and a toilet for the disabled. The complete and modular Sanitrax product line also includes urinals, washbasins and showers.

We're also happy to help you get started. Just as you can expect from a quality brand such as Sanitrax and our large network of partners, we go to work on your question and deliver a detailed overall plan and a situation report. It's easy to see why we're one of the fastest-growing companies in the market for temporary sanitary solutions.

Get in touch now to discuss your situation and needs. We'll be happy to help!

HIGHLIGHTS

- Component of total modular concept (toilets, urinals, washbasins and showers);
- Easy and cheap to transport, quick to deploy and scale;
- Enormous water savings due to unique flushing technology;
- Unique combination of appealing design and sturdy construction;

IDEAL FOR

- Events and festivals;
- Temporary construction sites;
- Military missions;
- Humanitarian aid programmes.

CUSTOMER BENEFITS

- Environmentally friendly and sustainable (up to 90% savings on water, smart transportation, LED lighting);
- Easy to clean;
- Customisable (branding) and expandable due to modularity;
- Quick to deploy and easy to transport;
- No specific installation tools necessary.

OTHER FEATURES

- Galvanised steel frame;
- Fiberglass interior;
- Vacuum and Gravity version possible;
- Includes waste bin, toilet roll holder, clothes hook and lighting.

TECHNICAL SPECIFICATIONS

- Dimensions (wxdxh) in cm: 255 x 120 x 145 (transport) or 235 (in use)
- Dimensions (wxdxh) in inches: 100.4 x 47.2 x 57.1 or 92.52 (in use)
- Weight: 750 kg / 1,650 lbs
- Transport: 26 units (78 toilets) on a 53' trailer (depending on local regulations)
- Power: 12V, 3W
- Water supply connection: 3/4" M Camlock
- Waste water drainage connection: 2.5" F Camlock
- Waste water system: Vacuum
- Vacuum pressure in bar: -0.3 to -0.6
- Vacuum pressure in psi: -4.3 to -8.7
- Water pressure in bar: 3 to 5
- Water pressure in psi: 40 to 90

SANITRAX WASHBASIN MODULE

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, washbasin units are an essential item.

Extremely practical, attractively designed and smartly equipped. It's also important that the units can be thoroughly and quickly cleaned between uses. Sanitrax washbasins are the ideal solution!

A VERY USEFUL AND SPACE-SAVING WASHBASIN

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

A unit consists of eight taps, four on either side. The attractively designed washbasins have a full-width stainless steel mirror and are equipped with integrated soap and hand towel dispensers. Used hand towels can be disposed of in several places in the washbasin unit.

The washbasins are equipped with water-saving taps and come with LED lighting. Furthermore, the attractive design and luxurious finish really stand out. The combination of all these factors makes the Sanitrax washbasin Unit the most complete solution on the market.

SANITRAX GOES THAT EXTRA MILE

Along with the very complete washbasin unit, the complete and modular Sanitrax product line also includes a shower, a urinal and a series of toilet units (standard toilet, VIP toilet and a toilet for the disabled).

We're also happy to help you get started. Just as you can expect from a quality brand such as Sanitrax and our large network of partners, we go to work on your question and deliver a detailed overall plan and a situation report. It's easy to see why we're one of the fastest-growing companies in the market for temporary sanitary solutions.

Get in touch now to discuss your situation and needs. We'll be happy to help!

SANITRAX ADA MODULE

The spacious toilet unit is very accessible and equipped with every convenience. The units are sturdy, luxuriously finished and equipped with smart technology to save water. It's also important that the units can be thoroughly and quickly cleaned between uses.

The Sanitrax ADA is indispensable at every venue!

SPACIOUS MOBILE TOILET UNIT FOR THE DISABLED

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand.

The Sanitrax ADA marks the addition of an easily accessible and spacious toilet unit for the disabled. The toilet can also be expanded to include a shower. A washbasin, mirror and baby-changing station complete the interior. The complete access ramp satisfies ADA requirements and can be safely stored in the unit during transport.

The unique flushing technology (saving up to 90% in water use) makes the toilet sustainable and very environmentally friendly. Furthermore, the attractive design and luxurious finish really stand out. The combination of all these factors makes the Sanitrax ADA unique and indispensable.

SANITRAX GOES THAT EXTRA MILE

In addition to the toilet unit for the disabled, Sanitrax also offers a standard toilet and a VIP toilet. The complete and modular Sanitrax product line also includes urinals, washbasins and showers.

We're also happy to help you get started. Just as you can expect from a quality brand such as Sanitrax and our large network of partners, we go to work on your question and deliver a detailed overall plan and a situation report. SANITRAX VIPLOO MODULE

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, a luxury VIP toilet/shower is a much appreciated addition to the sanitary facilities.

You can use these exclusive solutions for staff members, employees or artists, for example, and customise them according to your needs. The units are sturdy, luxuriously finished and equipped with all kinds of smart technology to save water. It's also important that the units can be thoroughly and quickly cleaned between uses. The Sanitrax VIPLOO is a unique addition to any venue!

UNIQUE MOBILE VIP TOILET AND/OR SHOWER UNIT

Sanitrax stands for Smart Sustainable Sanitary Solutions. Smart and sustainable sanitary solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to expand. The unique VIP unit is easy to configure to suit your needs. One

toilet and one shower, two toilets or two showers: adapting it is very simple. Just by removing the toilet, you have a shower! Each toilet/shower space has its own designer washbasin for optimal comfort!

Features unique flushing technology (saving up to 90% in water use) in the toilets and the water-saving shower heads in the shower section. Efficient and very environmentally friendly.

Furthermore, the attractive design and luxurious finish really stand out. The combination of all these factors makes the Sanitrax VIPLOO the most complete solution on the market.

SANITRAX GOES THAT EXTRA MILE

In addition to the unique VIP unit, Sanitrax also offers a standard toilet and a toilet for the disabled. The complete and modular Sanitrax product line also includes urinals, washbasins and showers.

SANITRAX SHOWER MODULE 2.0

When setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, a luxury VIP toilet/shower is a much appreciated addition to the sanitary facilities.

Beyond standard sanitary facilities, relying on showers that can be thoroughly and quickly cleaned is essential. The attractive, sturdy and very easy-to-use Sanitrax Shower modules are the ideal solution!

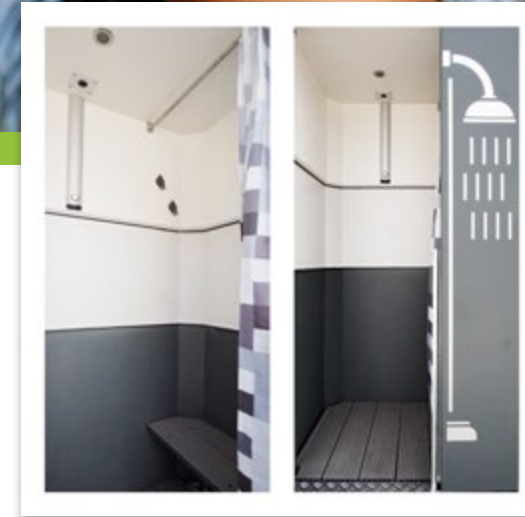

A VERY ATTRACTIVE AND EFFICIENT MOBILE SHOWER

Sanitrax stands for Smart Sustainable Sanitary Solutions for large groups of users. Easy to transport, quick and easy to set up, sustainable and easy to scale. Each module consists of two showers. The attractively designed, spacious showers provide complete privacy and sufficient light and ventilation. A shower curtain allows for the dry and safe storage of clothing and valuables inside the

stall itself. Each shower includes a water-saving shower head and LED light. Hot water supply is not included and supplied by others on site.

SANITRAX GOES THAT EXTRA MILE

The very efficient Shower module compliments the entire line of Toilets, Urinals, and Washbasins for a fully integrated sanitation solution for your event, festival, camp or large gathering needs.

We are happy to help you get started. Our team is ready to advice on your project needs for showers. We can connect you with our network of partners and can answer your questions to contribute to your success. It's easy to see why we're one of the fastest-growing companies in the market for temporary sanitary solutions.

SANITRAX PUMP TECH MODULE

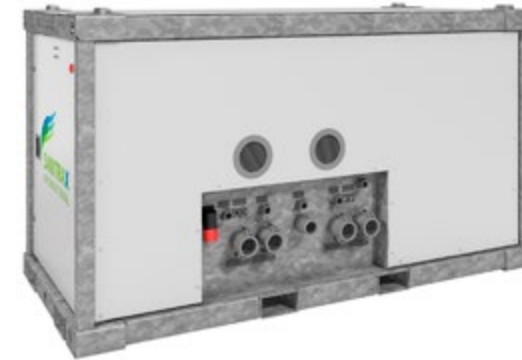

When you're responsible for setting up event venues, festival grounds, temporary construction sites, military camps or temporary sites for the reception of refugees, it's important to provide optimal toilet and personal care facilities.

The heart of the Sanitrax system is the Vacuum pump system. All modules are linked via hoses to the central tech module that can be located away from the toilets and ancillary modules. After vacuuming all waste to the central tech module, the pump macerates all of the waste and then pumps it to a sanitary sewer or holding tank that can be located up to 600 feet away. This creates an atmosphere of comfort and safety because there is never a big smelly service truck in front of the modules. All Sanitrax Modules are designed on a collapsible galvanised steel frame. When collapsed, up to 20 modules can fit per truck. That means 2 x Washbasin modules, 2 x Urinal module, 14 x

Toilet modules, 1 x Tech module and, 1 x hose crate would all come on 1 trailer load. This is a tremendous improvement over a typical "toilet trailer" which would have far less facilities per load. After offloading, each module takes only a minute to raise into show-ready configuration.

HIGHLIGHTS

- Total modular concept (Toilets, Urinals, Washbasins, ADAs and Showers)
- Easy and cheap to transport, quick to deploy and scale
- Enormous water savings due to unique flushing technology
- Unique combination of appealing design and sturdy construction
- Savings on operational costs (no need for pumping each toilet by service trucks)

IDEAL FOR

- Events and festivals
- Temporary construction sites
- Military missions
- Disaster response / Humanitarian aid programmes

WE OFFER THE FOLLOWING PUMP TECH MODULES:

- Pump Tech Module - 190 I** (connect up to 22 modules)
- 2 x Vacuum pump - L
 - Frame plating RAL 9010 / Stainless Sanitrax manifold
 - 4 x vacuum inlet, 4 x water outlet, 4 x 12 V outlet
 - 1 x 3/4" F water inlet, 2,5" M waste outlet, 400V (3ph/n/g) 63 AMP (50Hz) connector
 - Waterbooster system 3000 liter/hr @ 3 bar 175 liter buffer
 - Temperature sensor, water flow meter, antifreeze system
 - Sanitrax remote monitoring system

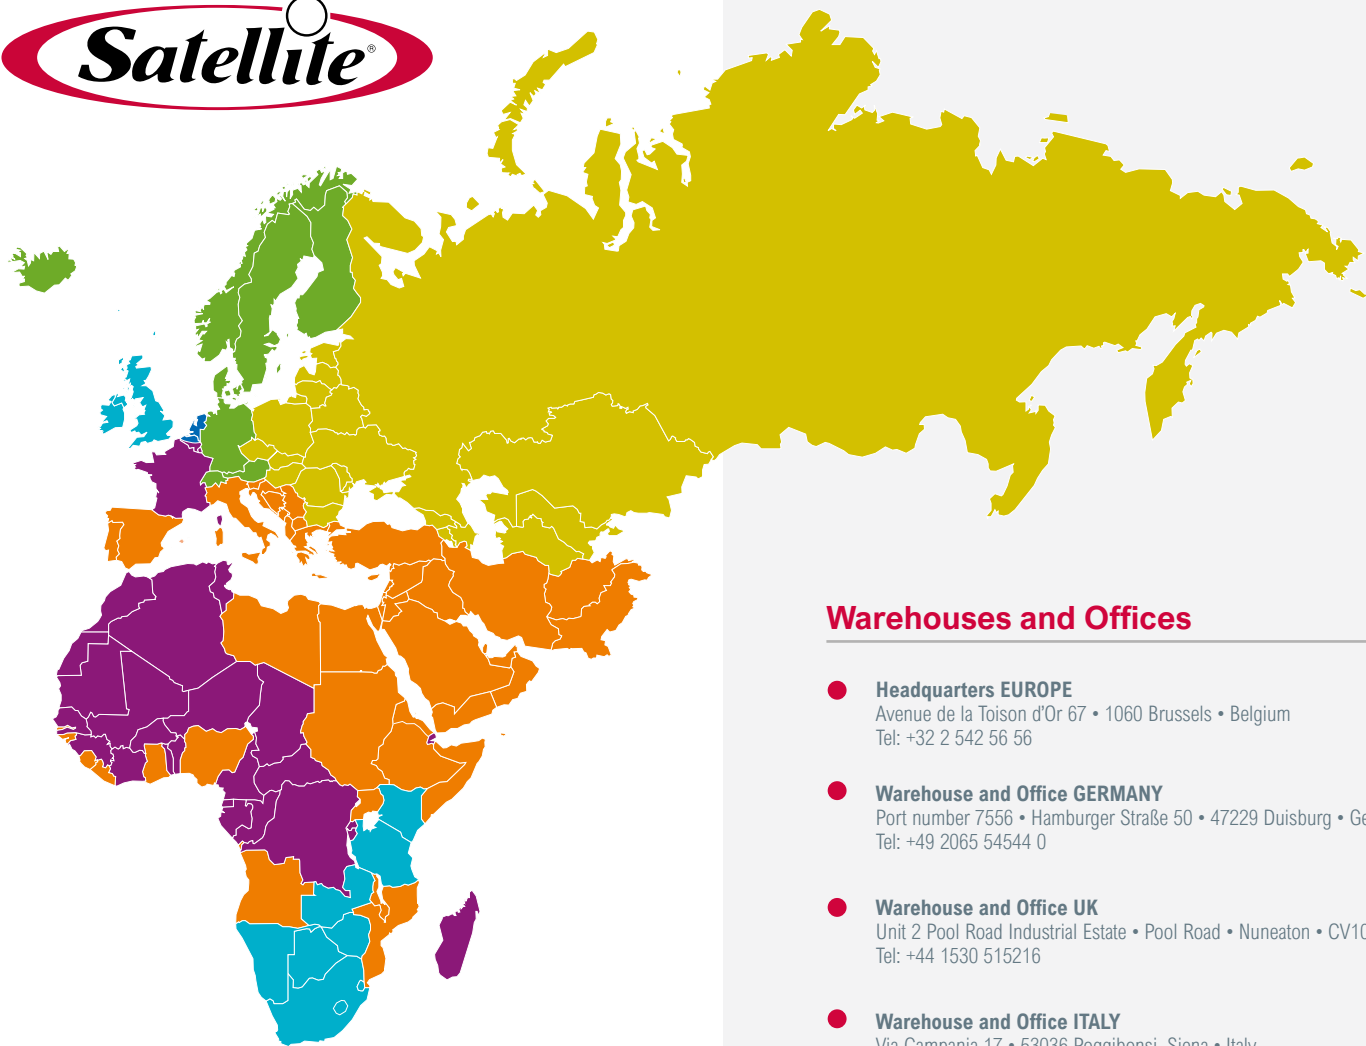

- Pump Tech Module - 190 I** (connect up to 22 modules)
- 2 x vacuum pump - L
 - Frame plating RAL 9010 / Stainless Sanitrax manifold
 - 4 x vacuum inlet, 4 x water outlet, 4 x 12 V outlet
 - 1 x 3/4" F water inlet, 2,5" M waste outlet, 480V (3ph/g) 63 AMP (60Hz) kamlocks
 - Waterbooster system 3000 liter/hr @ 3 bar 175 liter buffer
 - Temperature sensor, water flow meter, antifreeze system
 - Sanitrax remote monitoring system

- Pump Tech Module - 280 I** (connect up to 32 modules)
- 2 x Vacuum pump - XL
 - Frame plating RAL 9010 / Stainless Sanitrax manifold
 - 4 x vacuum inlet, 4 x water outlet, 4 x 12 V outlet
 - 1 x 3/4" F water inlet, 2,5" M waste outlet, 400V (3ph/n/g) 63 AMP (50Hz) connector
 - Waterbooster system 3000 liter/hr @ 3 bar 175 liter buffer
 - Temperature sensor, water flow meter, antifreeze system
 - Sanitrax remote monitoring system

- Pump Tech Module - 280 I** (connect up to 32 modules)
